

Spreader Bar for Forklift

Forklift Spreader Bars - ELME has been proudly operating ever since the year 1974, becoming the biggest independent spreader maker in the world. They are a dedicated producer of spreaders used for numerous different applications such as the trailers, handling of containers and swap bodies.

Engineering is done in-house by means of making use of all of the latest CAD systems and FEM tools. The ELME company currently employs more than one hundred twenty five employees. Their spreaders are supplied to reach straddle carriers, lift trucks, gantry, quayside, ship-to-shore cranes and stackers across the globe.

The ELME product collection offers spreaders meant for various container and trailer handling operations. Several of their inventory comprise: Lift Trucks, Straddle Carriers, Ship to Shore Spreaders, Spreaders for Rail mounted and Rubber Tired Gantry Cranes, Reach Stackers, Harbour Cranes in addition to a wide range of attachments.

Production and manufacturing of ELME products are established in highly automated purpose built factory. In the year 2008, they made one thousand one hundred fifty spreaders by way of making use of quality parts in order to guarantee dependability and high standards. Major characteristics of ELME comprise design simplicity, market feedback and inventive modular spreader concept.
