

## Meritor Parts

Meritor Parts - Meritor is a premier international dealer which is proudly founded on a one hundred year custom of service and quality. They specialize in several modules, integrated systems and parts to original machine manufacturers and the aftermarket for the transportation and industrial trades.

Meritor values the requirements of their customers to guarantee their success while priding itself in the company's unique energy and feels this output of energy to be their aggressive advantage in their worldwide operations. Meritor begins with a tradition which values diversity of people and their broad thought processes. Operating in 19 nations and employing more than 11,200 people, Meritor encourages collaboration and innovation amongst a team of experienced experts.

By just hiring future focused people, Meritor strongly thinks these top-caliber workers would be able to quickly get used to to changing surroundings and demonstrate the performance and commitment considered necessary so as to attain results in the competitive materials handling market. The business empowers their teams to make sound business decisions so as to improve the overall success of the company. In return, Meritor provides their staff various opportunities for professional and personal growth.

Their Advanced Engineering team is at the forefront of parts and system engineering that consist of drivelines, axles, braking and suspension systems utilized for medium and heavy duty trucks, trailers, off-highway vehicles, buses and military vehicles. The Meritor Advanced Engineering team is growing. They started a new technical center in Bangalore, India in September 2009 to be able to lead their advanced product development initiatives which represent the entire Asia Pacific region. This team is also responsible for supporting the needs of all their worldwide engineering workers.

The Quality team at Meritor is a customer-focused and dynamic group that is devoted to ensuring optimum development at their aftermarket distribution facilities and production plant that are situated on 5 continents and in 19 countries.

The supplier development network is particularly situated in order to support new business growth. Regional teams are supported by global centralized specialties, initiatives and quality systems in Six Sigma and Materials Engineering. Meritor's growing Six Sigma program encourages a data-driven, fact-based approach to decision making in each and every part of the business. The DFSS or Design for Six Sigma ensures product reliability in each region. The team is even included transactional Green Belts who apply Six Sigma tools to business processes and implement lean techniques.
