

TCM Forklift Parts

TCM Forklift Parts - Forklift trucks are an important player in the material handling field of each and every international trade. Transporting industrial goods happens each and every day on our hectic world. First innovated as industrial vehicles in the 1930s in America, forklifts gained popularity following WWII during the 1940s. Becoming an efficient and reliable means to material handling solutions, the need and practicality of these equipment spread internationally.

In 1949, founded by Mr. N. Niwa, the original Toyo Carrier Manufacturing Company Limited, which was later named Toyo Umpanki Co, was established. Now the company is simply referred to as TCM Corporation. Throughout the years, TCM lift trucks have become a worldwide leader in forklift manufacturing and have built a solid reputation in the trade. TCM started constructing forklift manufacturing locations outside of Japan during the 1980s and is now engaged in lift truck manufacturer at three foreign factories in Europe, China and the United States.

TCM proudly makes various models of industrial forklifts with more than 50 years of accumulated technology and expertise, making their products used and recognized all around the globe. Characterized by energetic staff and strong initiatives, TCM continues to look toward the future and intends to become a world-class leading business.
